## TIGRIDIA PAVONIA

(Mexican Tiger Flower)—One of the most gorgeous flowering bulbs grown. This native of Mexico has strangely escaped the attention of most flower-lovers in the United States and it is only during the last two or three years that stocks of these bulbs have become available. Plants attain a height of 15 to 20 inches, bulbs being planted and harvested in like manner to gladioli. Colors are scarlet, creamy yellow, and rose carmine, with unique center blotch. Our bulbs all have several noses and will produce blooms throughout the summer and fall. Full cultural directions with each order.

Price 20c Each—\$2.00 per Dozen.

"One of America's Premier Bulb Farms"

Our Fall Catalogs are issued in July for all those interested in the growing of Tulips, Narcissi, Crocus, Hyacinths, etc. A retail list for small buyers and a wholesale list for those who buy in quantity. We are the largest growers of Tulips on the Pacific Coast and it will pay you to have your name on our mailing list.
